

Getting Started

Creating your account

If you are new to the Live Living Network, the first step is to Register under the **30-day Free Trial**. Once registered you will be ready to explore our programs and book events.

Booking events

Once you log in, under the Live Events tab discover livestreams and simply **Book** the event you would like to attend. Once the event is Booked, you will receive an email confirmation that you can save in your calendar. If you would like us to share a google calendar with you, please email us at info@streamablelearning.com.

Prior to attending a live stream

Setting up your computer - Make sure you have an updated version of Zoom installed on your computer. Simply go to zoom.us/downloads and install *Zoom for Meetings*. This is a quick download. As a second step go ahead and test at zoom.us/test to confirm that you have good connectivity.

Technology placement is very important. These are Interactive livestreams, meaning residents or a local program facilitator can type in questions to be answered live by the presenter. Questions are entered through the Chat or the Q&A feature located at the bottom of the PC streaming the program. It is a good idea to have the computer in an area that is accessible to all.

Day of the Program

Make sure you go to the livestream URL about 5-10 minutes before the livestream is scheduled to begin. This will help deal with any last minute issues that need to be addressed.

Recordings

Programs are mostly recorded and are accessible under the recording tab.

If you are having any technical issues at any time during the setup or the day of the program please contact email us at info@livelivingnetwork.com
